

# THERMAL GLIDE PATIO DOORS FOR EVERY DECOR

## Everything You Want In A Patio Door...And More.

A patio door should be one of the most inviting parts of your home. It will be, if you choose Soft-Lite. Our patio doors will help you express your lifestyle best, because they are as durable, energy efficient, and maintenance-free as can be.

We offer five standard door sizes and also make custom doors to meet your specifications. Our standard six foot wide patio door, shown above with two side lites, will beautify any home.

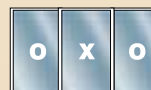

*Our patio door offers effortless operation.*

### STANDARD PATIO DOOR SIZES

*Custom size doors, transoms and side-lites are also available.*

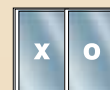

Choose your preference of right-hand or left-hand operating lites, viewed from **OUTSIDE** looking in. ("X"= operating lites. "O"= fixed lites.)

12' x 6'8"

9' x 6'8"

8' x 6'8"

6' x 6'8"

5' x 6'8"

## Quality From Top To Bottom And Side To Side!

1. Heavy duty Fiberglass pultruded sill. Durable enough to bear heavy foot traffic anywhere along the sill.
2. Fusion-welded metal reinforced sash. Provides structural integrity. Eliminates drafts.

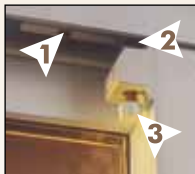

3. Multi-chambered, hollow core, welded main frame. Provides superior strength.
4. 1" triple pane glass and 7/8" double pane insulated glass are optimized to provide maximized energy efficiency.
5. Tempered glass. Shatters into dull rather than sharp pieces of glass.
6. Lead-free, virgin PVC vinyl. Our vinyl stands up to the weather, wherever you live, for a lifetime.
7. Interlocking panels. Prevent separation when door is closed.
8. Easy rolling extruded screen door locks for added protection. An optional upgrade to BetterVue™ screens will provide better insect protection and curbside beauty.
9. Optional Grids. Available in a wide variety of grid styles, colors and combinations. Ask your window representative for details.
10. Optional Decorative Glass. Wide variety of glass colors and patterns. Please ask your rep for details.

Metal reinforced sash provides structural strength.

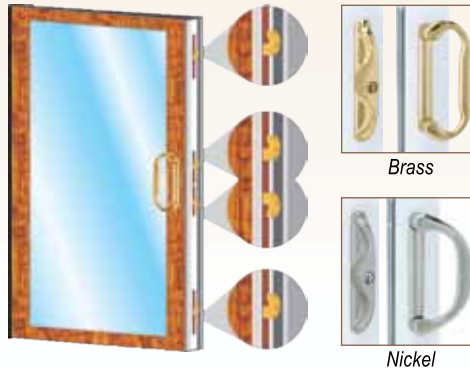

Heavy-duty extruded aluminum screen door is stronger than conventional roll form screen doors.

Optional heavy-duty vent lock/dead bolt provides three benefits.

- 1) In the vent position the bolt keeps the door partially open to let in fresh air.
- 2) In the closed position the bolt provides a secondary lock.
- 3) The spring-loaded bolt quickly unlocks with the press of a button.

### Secure Locking System

Our deluxe handles provide multi-point locking security by locking the door in four locations. The locks are made from zinc in order to protect against corrosion while still maintaining structural strength (all of the internal springs are made from stainless steel).

### Single-Lock Handles

Single-Lock handles come standard in powder coated paint colors of white, cream-white, beige, and brown. Other color options include your choice of brass, antique brass, and nickel.

## Wide Selection of Colors and Combinations

STANDARD Sure-Coat™ EXTERIOR COLORS  
Custom colors are available  by special request.
