MAKE YOUR HOME A BETTER, BRIGHTER PLACE WITH BARRINGTON WINDOWS!

SoftLite's Barrington windows will give you everything you want and need for your home — a wide-open view of the outdoors, enhanced comfort, thermal efficiency, and many other benefits you probably never even considered!

A more comfortable home

Barrington windows allow you to enjoy large expanses of glass yet remain comfortable in your home. These windows are designed to be exceptionally thermally efficient, which can be enhanced even further when you select an ENERGY STAR® certified glass option. You'll love the feel of your home — as well as the savings you'll see on your energy costs!

Protect your family—and your home

Our intruder-resistant windows will help to ease your mind. Heavy-duty locks, super-strong frames and sashes, and many other innovative features make Barrington windows some of the safest, most secure products you can install in your home.

Classic beauty and unwavering value

Attractive and stylish color choices. A panoramic view of the outdoors. Easy-to-operate window styles. Long-lasting reliability. Barrington windows from SoftLite will give you all of these benefits and more. They're a practical and economical choice that will add beauty and value to your home for years to come.

STANDARD FEATURES FOR AFFORDABLE DURABILITY, EFFICIENCY, AND BEAUTY

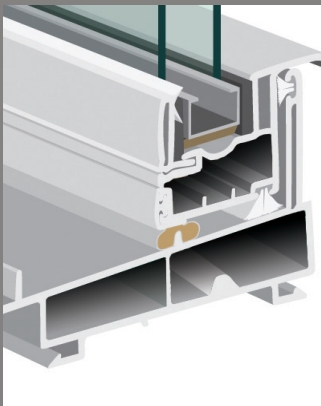

- 1 Fusion-welded sashes and frame are built to be exceptionally strong and durable, which helps prevent air and water infiltration.
- 2 Dual-fin, wool-pile weatherstripping protects around the perimeter of all sashes to fight air infiltration.
- 3 Certa-Force™ balance system provides smooth and easy operation of double-hung windows — and requires minimal maintenance or adjustment.*
- 4 Integral lift rail features comfortable, ergonomic design and is significantly stronger and more durable than snap-in lift rails.
- 5 Stainless steel spacer and sealant system is fully automated for excellent condensation resistance and seal integrity.*
- 6 Extruded aluminum screen frame features unobtrusive black screen mesh and matching black spline.*
- 7 Optional reinforcement in the meeting rail and bottom sash rail ensures maximum structural performance and enhances the security of the window.*

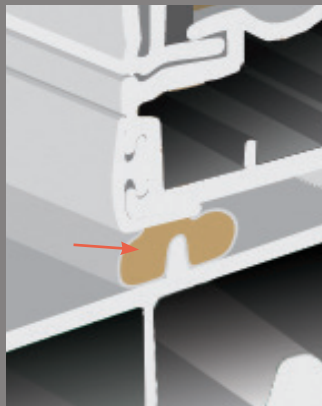

* Feature not shown in photo.

AAMA Gold Label Certification**	
Air:	0.07 cfm at 25 mph — 4.3 times better than industry minimum of 0.30 cfm
Structural:	DP 40 153 mph — 63% over industry minimum of 94 mph

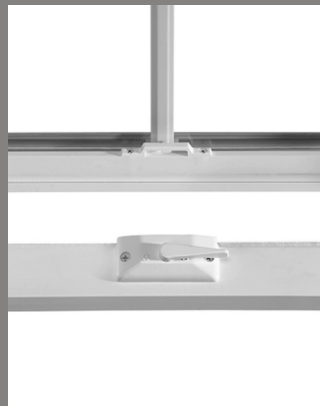

** With reinforcement upgrade. Standard Barrington without reinforcement is .10 CFM (air) and DP35 143 mph (structural)

Dura-Sill engineered sloped sill, featuring a double-wall sill dam, creates a super-strong bond between sill and jamb for maximum weather protection.

Foam-Tite® compression seal with straddle gasket is a closed-cell neoprene weatherseal that secures the sill and sash to prevent air and water infiltration.

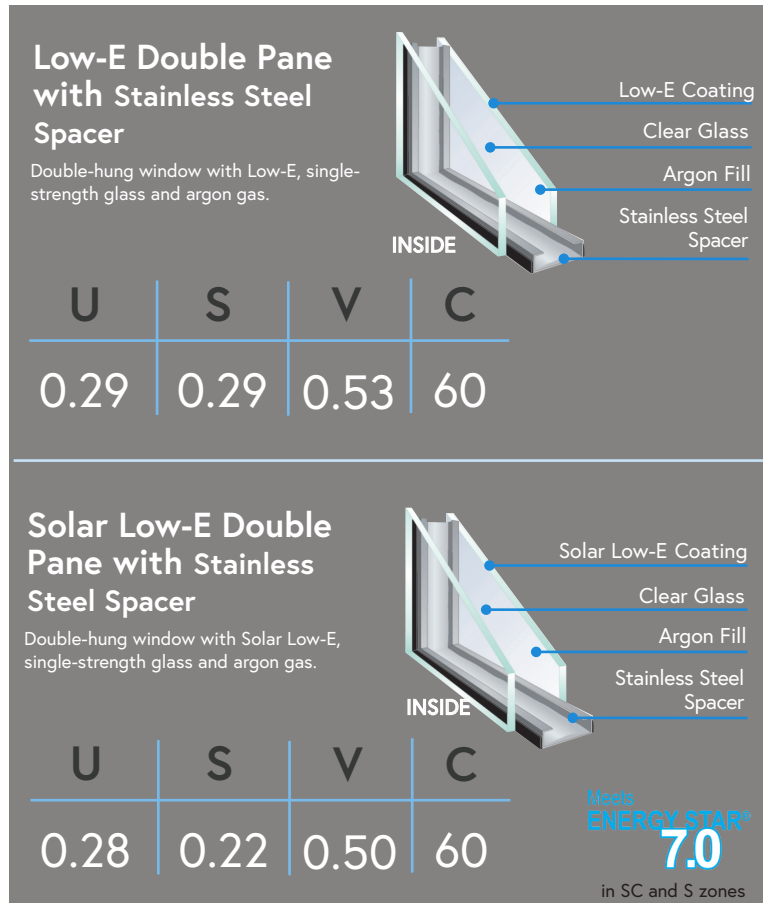

Cam-Action lock features durable zinc-cast design that pulls sashes and interlock tightly together to reduce air infiltration.

Exterior coved mainframe with drip cap provides contemporary beauty and style.

Glass Options

SoftLite windows feature some of the best glass products available. We offer technologically advanced insulating glass systems that can be tailored to best perform in your climate region, which will help save you money on energy costs. Below are a few examples of the Barrington glass packages and ratings.

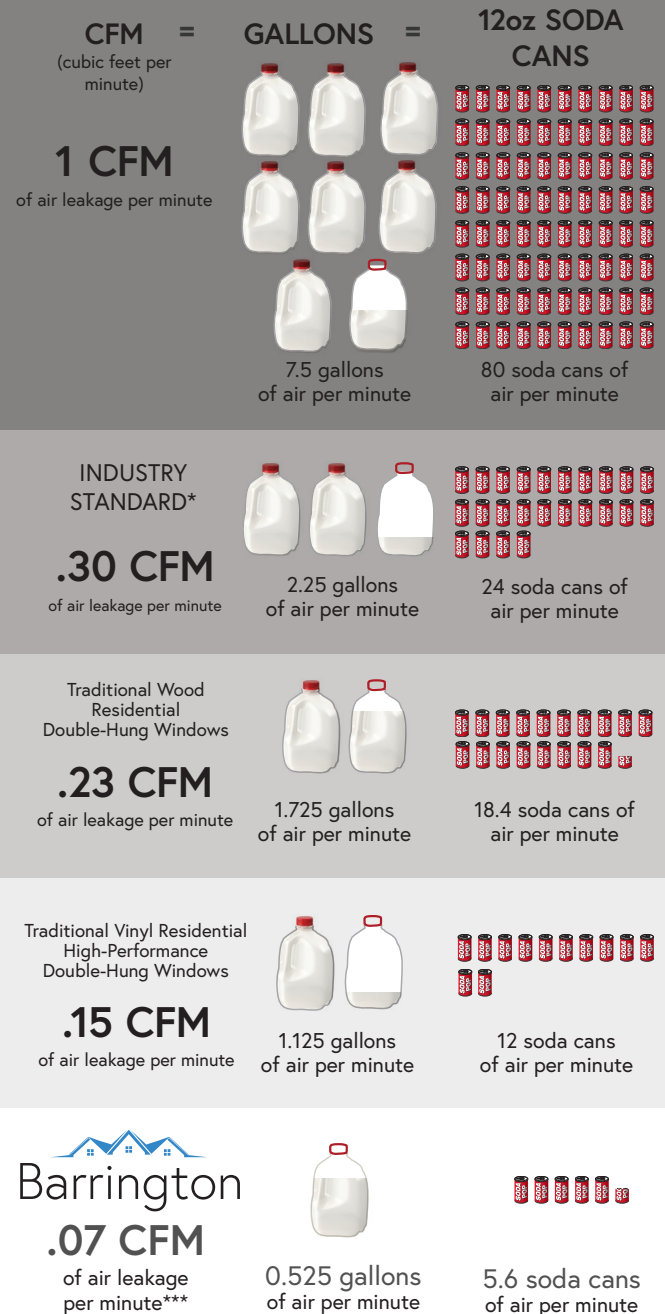

U= U-Factor S= Solar Heat Gain Coefficient V= Visible Transmittance C= Condensation Resistance

SoftLite has been an ENERGY STAR Partner of the Year Award winner since 2014 and earned the Sustained Excellence award since 2016. Barrington windows, coupled with high-performance glass, qualify for the ENERGY STAR 7.0 criteria in certain climate zones, helping you save money on your energy costs.

AIR INFILTRATION COMPARISON

Barrington windows are more than 3x airtight than traditional wood residential double-hung windows.

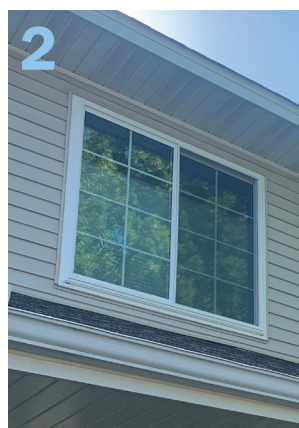

***INDUSTRY STANDARD:** AAMA® (*American Architectural Manufacturers Association*) has set the industry standard for maximum allowable air infiltration at 0.30 CFM (cubic feet per minute) during a 25 MPH wind. This is equal to 2.25 gallons or 24 soda cans of air leaking through the window every minute!

- References valid as of Oct. 1, 2023, based on our competitor's websites and independent testing.
- Value shown for Barrington window with reinforcement upgrade. Standard Barrington window achieves a .10 CFM air rating.

Barrington windows proudly carry the AAMA Gold Label, meeting stringent performance standards for air and structural load.

PICK YOUR STYLE

Barrington windows from SoftLite are available in practically every window operating style available. From traditional double-hungs or horizontal sliders to room-expanding bow and bay models and easy-to-operate casements and awnings to, we have the style to suit your needs. You can replace your old, worn-out windows with the same style — or give your home a fresh new look and feel by selecting a different operating style.

1. DOUBLE-HUNG

SoftLite double-hung windows feature two operating sashes so you can open both the top and bottom of the window. The stylish beauty of these windows enhance the look of any home, provide excellent thermal performance, and the tilt-in sashes make cleaning and maintenance a breeze.

2. SLIDER

Sliding windows are beautifully designed to provide an unobstructed view yet built tough for decades of smooth operation. Sliders operate similarly to double-hung windows, except they open horizontally rather than vertically.

3. CASEMENT AWNING & HOPPER

Casements and awnings allow you to catch fresh breezes or open them for easy cleaning with the simple turn of a handle. With casements, a single-lever lock activates multiple locking points to ensure these windows are also exceptionally secure. Casements open out to the side, awnings are top-hinged and open out at the bottom, and hoppers are bottom-hinged and pull inward.

Awnings available in vertical or horizontal multi-lites.

4. BOW & BAY

The three-dimensional effects of a bow or bay window will enhance the look of any room by adding space and beauty to your home. You can choose from 3- to 5-lite configurations with casement, double-hung, or picture windows, as well as a wide selection of options.

5. PICTURE & SHAPES

Barrington picture windows are available in many specialty shapes and sizes, all custom built to perfectly fit uniquely shaped openings. Choose from a huge array of shapes from circle-tops to pentagons to octagons and much more. These are typically fixed-lite (non-operational) windows.

6. PATIO DOOR

Our stunning sliding patio doors will make your home more beautiful and energy-efficient. All of our patio doors are designed for long-lasting durability and smooth operation and are offered with an array of options that allow you to customize both the thermal efficiency and appearance of your new door.

VINYL COLORS

INTERIOR/EXTERIOR

SOFT-WHITE

BEIGE

GRIDS

Flat grids

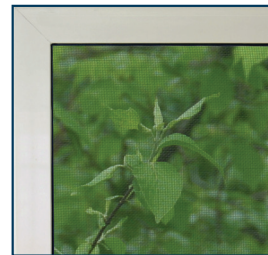

Contour grids

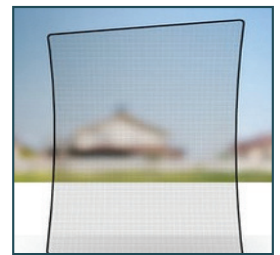

Internal grids give your windows the look and feel of true divided-lite windows — without the hassle! Because they're between the glass panes, these grids allow for easy cleaning. Available in flat or contoured designs in regular or wide widths and in several distinctive patterns. *(wide width only available in certain patterns)*

SCREENS

Optional **BetterVue™** fiberglass screens give you more airflow and a clearer view of the outdoors while increasing insect protection.

FlexScreen features a cutting edge, PVC-coated, high-performance spring steel frame that is hidden in the window screen pocket, which improves sightlines.

(Optional on select double-hungs and sliders)

LIFETIME WARRANTY

Our lifetime warranty is designed to protect your investment and our reputation. It guarantees that our windows will not rot, rust, warp, pit, corrode or blister, and that our vinyl colors will remain true for the life of your home. Our lifetime warranty is non-prorated and is fully transferable. We also warrant all moving parts and the hermetically insulated seal against defects in materials or workmanship. Finally, we offer the ultimate in protection with an optional lifetime glass breakage rider for extra peace of mind. Ask your SoftLite representative for a copy of the warranty to review terms and conditions.
